Greetings!..

- To whom would I refer to with respect to obtaining necessary information regarding land(s), in what is now known as California, possibly held by some of my Ancestors?
- What were the Indian laws of the land prior to 1938 with respect to the rightful heirs/descendants?
- Is there an official Register of Records in its original language(s) in distinct detail? If so, where online or in person is/are the document(s) available?
- With regards to Mexico and Spain, what were the laws of the land prior to 1821

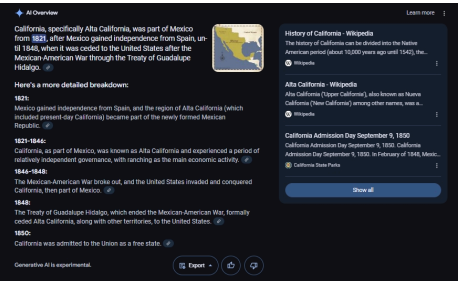

About the California State Lands Commission  
slc.ca.gov/about/

*"Established in 1938, the Commission manages 4 million acres of tide and submerged lands and the beds of natural navigable rivers, streams, lakes, bays, estuaries, inlets, and straits. These lands, often referred to as sovereign or public trust lands, stretch from the Klamath River and Goose Lake in the north to the Tijuana Estuary in the south, the Colorado River in the east, and from the Pacific Coast three miles offshore to world-famous Lake Tahoe in the east, and includes California's two longest rivers, the Sacramento and San Joaquin. The Commission, in its capacity as a landowner, protects and enhances these lands and natural resources by issuing leases for use, development, and environmental preservation, championing public access, and resolving boundaries between public and private lands".*

AI Overview:

"California, specifically Alta California, was part of Mexico from 1821, after Mexico gained independence from Spain, until 1848, when it was ceded to the United States after the Mexican-American War through the Treaty of Guadalupe Hidalgo".
